THE GLOBAL TABLE TENNIS BRAND

— FROM GERMANY —

DONIC

We at DONIC are proud of the trust that thousands of table tennis players have placed in the company since its inception 25 years ago.

DONIC is currently regarded as one of the top table tennis brands in the world!

The DONIC principle. Excellent results are often based on simple principles. DONIC believes in quality, innovation, up-to-date technique and speed. DONIC's tradition is to be FIRST on the market with new products. Innovations such as FORMULA DONIC rubber sheets or the blade technology of SENSO and DOTEK have added to DONIC's fine reputation.

DONIC – a family owned company. Frank Schreiner, DONIC's Managing Director and CEO and Karlheinz Schreiner the founder of the company were active players in the German Bundesliga. The head office is in Völklingen, Germany. DONIC also has a joint venture producing textiles in Zhongshan, China for some time

DONIC

Jan-Ove Waldner

Jörgen Persson

Dima Ovtcharov

THE LEGENDS
AND THE FUTURE

DONIC – stands for success: Numerous World and European Champion titles have been achieved using DONIC equipment. The legendary Olympic Champion Jan-Ove Waldner and Jörgen Persson a multiple World Champion who have enjoyed their success using DONIC products, as have many other outstanding players world-wide. This long established tradition continues with the success of German National Team player Dima Ovtcharov. Dima is currently European Men's Singles Champion and European Games winner and is the highest ranked non-Chinese player and the holder of many other championship titles.

DONIC know-how and guaranteed quality.

Before DONIC's state-of-the-art products are launched, they have to undergo strict tests and controls. Our products are distributed worldwide in more than 80 countries.

Our trademark DONIC guarantees excellence.....

WE CREATE SUCCESS!

DONIC

Champion TLC

Another table with the proven Twin Compact Technology. With the patented and well established closing mechanism of the DONIC World Champion TLC table. This new table is also constructed on a metal base. All individual metal parts are beautifully made and durable, functional, as well as attractive to look at. Like its "big brother", the DONIC Champion TLC is solid and safe, whether used in play or parked. The table is delivered almost fully assembled and in its own special box.

Our Price: **\$1499**

World Champion TLC

The official table of the 2006 Liebherr World Team Championships in Bremen and 2007 Liebherr European Championships in Belgrade. The highest quality standard and design. DONIC introduces the World Champion TC, a new generation of automatic tables with "Twin Compact technic", which meets the highest requirements for safety, durability, set-up and playing characteristics. A classic finish and the use of top quality solid metals guarantee high stability and a long-playing life.

Our Price: **\$ 1899**

Persson 25

We have developed a 25 mm high- quality top, which provides better contact between ball and table. Both table halves have a separate stable automatic undercarriage. Minimum storage dimensions because of a special folding mechanism. All players - including Jörgen Persson, who gave the table its name - are really enthusiastic about the playing characteristics, technical standard and look of this table.

Our Price: **\$1699**

Spruce Pressing Technology (SPT) "Made in Germany"
Our finest quality, produced by top craftsman in honour of the Swedish legends.

Top workmanship, made in Germany. The new World Champion 89 blade series is exceptional. It celebrates the 25th anniversary of Sweden winning the World Championships Team title in Dortmund in 1989 (in a historic 5-0 final win against China). DONIC is exclusively producing three new blades in Germany, in honour of the legends Jan-Ove Waldner, Jörgen Persson und Mikael Appelgren. Hand crafted and employing the most modern precision and technical know-how, in acknowledgement of the supreme mastery with which the Swedish Superstars played.

All three models have incorporated an Italian Spruce ply which is over 200 years old. This is combined with a 3mm strong centre veneer of Kiri and for the Appelgren All+ model, Ayous combined with a new Carbonfleece Zylong webbing (CF2), exclusive for DONIC. Only the finest saw plies of our own production are being used. These are more stable than the usual knife plies and are a guarantee that the blade retains its playing characteristics without the normal deterioration.

A specially developed drying procedure reduces the moisture content of all three types of blade from 12 to 16% to only 4%, resulting in a stable and light blade (Waldner and Persson blades weighing approx. 85g and the Appelgren All+ blade only 80g approx.) Each individual blade is subjected to a special cold press for 24 hours. The employment of our unique 3D-technology and the most recent bio technology ensures that the handle is in perfect shape.

Donic Appelgren All+ World Champion 89

The employment of our unique 3D-technology and the most recent bio technology ensures that the handle is in perfect shape. Perfect light allround blade for all types of players, irrespective of their playing standards.

Category: AR/AR+
 Elasticity: speed-elastic
 Thickness of ply: 6, 1 mm
 7-ply
 Weight: 80 g
 Our Price: **\$92.95**

DONIC Ovcharov Feat

has qualities which will improve your play: Quality, lightness and feel. This unique German design has been lovingly hand made with selected materials guaranteeing a special feel that you will be delighted with. The flawless round handle fits comfortably into the hand due to the ergonomic shape.

Category: AR / AR+ / OFF-
 Elasticity: nearly stiff
 Thickness of ply: 6.2mm
 5 ply
 Our Price: **\$92.95**

Donic Persson OFF+ World Champion 89

only the finest saw plies of our own production are being used. These are more stable than the usual knife plies and are a guarantee that the blade retains its playing characteristics without the normal deterioration. The fastest of the new blades. For players requiring a harder blade with basic high speed.

Control: 7, Speed 10+,
 Category: Off/Off+ ,
 Elasticity: rigid
 Thickness of ply: 6, 9 mm,
 7-ply
 Our Price: **\$92.95**

Donic Waldner OFF World Champion 89

Made for the greatest player off time Waldner always had perfect balance in mind to achieve great placement and flawless shots. This is a fast blade but with great feel and ease of control. Designed for players who require a balance between speed and control.

Control: 7, Speed 10+,
 Category: Off/Off+ ,
 Elasticity: rigid
 Thickness of ply: 6, 9 mm,
 7-ply
 Our Price: **\$92.95**

Donic Baum Esprit

The blade of the reigning European Finalist, Patrick Baum. The artificial Aramid-Carbon fibre in combination with high quality woodplies ensure a precise ball return and outstanding offensive quality to the blade. In addition to being very fast, the Baum Esprit ensures maximum ball control in every playing situation. It is particularly suited for counter top-spinning and for touch play. This blade is ideal for attackers who value spin but require sufficient speed.

weight: 90 gr.
Layers: 7
lasticity: nearly stiff
Our Price: **\$62.95**

Donic Persson Seven

A fine attacking blade from DONIC. Especially developed for modern, dynamic top spinners and has a soft feel when striking the ball. The 7-ply blade (Limba-Ayous-combination) has good feel and is very spinny. It also offers excellent control when hard top spins are required. The perfect blade for intelligent attackers who vary their game and require spin, speed and maximum feel.

weight: 85 gr.
Layer: 5
Elasticity: stiff
Our Price: **\$49.95**

Donic Ovcharov Carbospeed

This is the quickest model in the new blade series. In its construction it is similar to the Waldner Legend Carbon, but differs slightly because of its somewhat thicker inner ply in combination with a high class Hinoki outer play. It is a very fast carbon blade with great stiffness and almost impossible to break. Despite the high speed the blade is great fun to play with. For all out attackers with hard top-spins who prefer to counter-attack.

weight: 88 gr.
Layer: 7
Elasticity: stiff
Our Price: **\$79.95**

Donic Waldner Legend Carbon

A new DONIC development - the blade you must have! Fast and extremely light offensive blade. Having a larger "sweet spot" ensures premium control. The blade has been designed with great care. The choice of wood plies - Hinoki outer ply in combination with carbon layers and a soft inner ply provide stiffness for good topspin. Especially for close to the table attackers who like to dominate.

weight: 85 gr.
Layer: 5
Elasticity: stiff
Our Price: **\$74.95**

All rubbers \$42.99!

DONIC Bluefire M1

highly dynamic, extremely spinny top sheet. Recommended for top players or players who practice a lot and prefer to use harder rubbers.

Color: Thick: 1.8-2.2

DONIC Bluefire M2

Excellent balance between speed, catapult effect and feel. Recommended for Players who like to play with Medium Hard rubbers and attach high importance to spin and

Color: Thick: 1.8-2.2

DONIC Bluefire M3

Perfect adjustment of the soft version with precise feel, excellent spin and perfect sound. Recommended for Players that prefer soft rubbers with perfect control and good speed.

Color: Thick: 1.8-2.2

DONIC Desto F1

This is the fastest rubber from the DESTO Formula series. A high-tech product for well trained players of ability, who require more speed from their rubber.

Color: Thick: 1.8-2.2

DONIC Desto F2

This is the bridge between F3 and F1, giving great control at high speed. DONIC DESTO F2 is soft, has a good feel and the full sound of speed glue-ing.

Color: Thick: 1.8-2.2

DONIC Desto F3

It is somewhat faster than a traditional spin elastic rubber. This rubber is soft and dynamic, has excellent control, and the sound of speed glue.

Color: Thick: 1.8-2.2

Donic Bluefire JP01

Extremely grippy, though elastic top surface rubber. Produces maximum spin and stays on the blade longer. Recommended for close to the table attackers as well as for those who like to play away from the table.

Color: Thick: 1.8-2.2

DONIC Bluefire JP02

Ideally suited for attackers and powerful allround players who require all these qualities in a rubber. perfectly combines spin, speed and control excellent feel; easy to play with and very forgiving

Color: Thick: 1.8-2.2

DONIC Bluefire JP03

Small changes to the structure of the sponge combined with a new pimple formation ensure that these Turbos have enhanced dynamic and spin qualities.

Color: Thick: 1.8-2.2

DONIC Desto F1 "Plus" NEW

Desto F1 Plus is a further development of the first, much loved, Formula DONIC Desto F1 rubber sheet, with inbuilt speed glue effect. This slightly harder and speed optimised sponge ensures more dynamic, whilst retaining its fine playing qualities of a slightly flatter ball arc, plus an increased playing life (Lifetime PLUS).

Color: Thick: 1.8-2.2

DONIC Acuda Blue P1

New pimple geometry. Excellent ball return. Medium hard, the dynamic attacking version. For all out attackers. A pleasure to play with, a rubber to be at ease with.

Color:  Thick: 1.8-2.2

Our Price: **\$44.95**

DONIC Acuda Blue P2

New pimple geometry. Excellent ball return. Medium soft, all-round attacking version, the gold standard version of an all-round rubber. For offensive and power all-round players higher degree of hardness.

Color:  Thick: 1.8-2.2

Our Price: **\$44.95**

DONIC Acuda Blue P3

New pimple geometry. Excellent ball return. Super soft, excellent control with satisfying sound. For all-round players A pleasure to play with, a rubber to be at ease with.

Color:  Thick: 1.8-2.2

Our Price: **\$44.95**

DONIC Acuda Blue P1 TURBO

A packet of strength! An impressive result of the most modern technology. The Acuda Blue P1 Turbo offers greater speed whilst retaining its legendary control. All made possible by a unique new pimple formation. The P1 Turbo is the most dynamic and hardest rubber from the Acuda series. Since the distance between the pimples is wider and the pimples themselves are smaller, the rubber actually plays softer. A packet of strength for the uncompromising attacker who expects optimum speed and power combined with an easy feel.

Control: 7-
Speed: 10++
Spin: 10+++
Category: OFF/OFF+

Color:  Thick: 1.8-2.2

Made in Germany.
Sponge hardness: medium
Surface: spin-elastic

Our Price: **\$54.95**

*1 = Elasticity Category: E = elastic, CE = control-elastic, SE = speed-elastic, NS = nearly stiff, S = stiff.
 All blade ratings have been determined during various tests in co-operation with, and constant feedback from many top players.
 The figures are from 0-10 (10+++ being the highest score).
 These ratings should help you to make your decision. Please do not consider just the maximum rating but also your playing style when choosing your equipment.

*1 = Topsheet Characteristics: FC = high friction and control, CE = control-elastic, SE = spin-elastic, STE = sticky elastic.
 All rubber ratings have been determined during various tests in co-operation with, and constant feedback from many top players.
 The figures are from 0-10 (10+++ being the highest score).
 These ratings should help you to make your decision. Please do not consider just the maximum rating but also your playing style when choosing your equipment.
